

Congo Offline Editor Installation Instructions

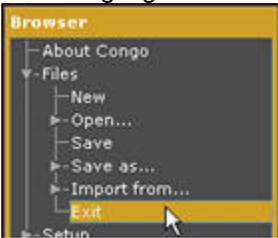

Installation:

- 1) Place the downloaded file "Congo.msi" from the .zip library on your desktop and double-click to install.
- 2) Please use the default c:\congo folder for install. Specifying a custom folder doesn't work for this version of the software.

Using the application:

- 3) In start/programs, look up the folder "Congo" and choose "Start Congo"
- 4) Once started, the Offline Editor will open up in full screen.
- 5) Press your ENTER key once to open up the user field. Leave it as "Default" or type in your name and press ENTER once again
- 6) The application will now open the "1. Main Playback" tab
- 7) If not familiar with Congo Offline Editor, click at the arrow next to HELP in the browser window at the left to open up the HELP meny structure and choose "Quick Start to Programming" by double-clicking to learn about the application.

Use the Keyboard Shortcut document in the download package to navigate the program using your PC keyboard.

Function	Key	Feedback
1. Open the Browser	<input type="text" value="BROWSER"/>	If it was already selected it will be closed. Press again to open.
2. Go to Files	Down Arrow	Files is highlighted
3. Open subnodes	Right arrow	Subnodes are opened
4. Select Exit	Down Arrow	Exit is highlighted 
5. Confirm Exit	<input type="text" value="MODIFY"/>	You will get a popup asking you to confirm, and exit to the login screen.
6. Select Shutdown	Right Arrow	Highlights the Shutdown symbol in the login screen 
7. Confirm Shutdown	<input type="text" value="MODIFY"/>	The system is shut down. You can power off now.

Release notes:

These can be looked up using the built-in browser to find: *Media/Documentation/Versioninfo.htm*

Congo Offline Editor Installation Instructions

Congo Client Software Use

To run the Congo Client on a PC and connect it to a Congo Server, you will need to purchase a Congo Client Dongle. This dongle is included in the Congo Client Kit. The Congo application will operate as an Offline Editor when the dongle is not connected to the PC.

To use the Congo Client Dongle, you will need to install the dongle drivers. This is provided on the installation CD in the Congo Client Kit (HASP_User_Setup .zip or HASP4_driver_setup.zip) or you can download it from the following Web site:

<http://www.aladdin.com/support/hasp/hasp4/enduser.asp#latestDD>

Double-click the zip file to extract the installer. Double-click the HASPUserSetup.exe (or hdd32.exe) file to run the installer.
