Compatibility

Eos

The Focus Remote apps require Eos v2.6 or later to connect. In order to use the FocusWand feature, connected consoles must be running Eos v3.0.0 or later.

Android

aRFR requires Android OS 7.0 (Nougat, sdk 24) or later.

FocusWand requires ARCore. ARCore support is managed / maintained by Google. A full up to date list of supported devices can be found at developers.google.com/ar/discover/supported-devices.

iOS

iRFR requires iOS 11 or later.

FocusWand requires ARKit, available on iOS 11.3 and later on the following devices:

- iPhone SE and above
- iPad Pro, iPad 5th gen and above

> **Note:** *Augmented Reality support of your device can be found on the About screen.*
>
> *ETCPad does not current support FocusWand.*

v4.1.1 Issues Fixed

The following issues have been resolved in this software release.

EOSAPPS-121   Changes to Android app required for Google Play Store
