

# From Basic TO BRILLIANT

## *Upgrade your existing Sensor rack to use the latest gear!*

Did you know your existing Sensor rack can easily be upgraded to use ETC's latest technology? Our Power Package Upgrades make it easy to add LED and moving lights.

ETC's Power Package Upgrades are an easy, quick, and budget-friendly way to convert your Sensor rack from basic to brilliant!

**Plus you  
get a new  
warranty!**

## *Transform your fixtures with the Source 4WRD II!*

The Source 4WRD II upgrades the Source Four fixtures you already have into bright, energy-saving LED workhorses that work with dimmable power.

Want more? The dynamic Source 4WRD Color II is a simple retrofit that unlocks the world of LED color mixing for less!

# ETC Power Package Upgrades

The ETC Power Package Upgrade transforms older power infrastructure systems to like-new status, complete with a new warranty.

With this update, your venue can prime its infrastructure for LEDs and moving lights. With ETC's ThruPower modules, you have a dimmer, a relay and constant circuit – all in one module. So no matter the loads you need to control, ETC has you covered.

Because this is an update to your existing Sensor Rack – not a new system – the work can be done quickly between shows, with minimal downtime. Plus, it's performed by certified ETC technicians for peace of mind that it will be done right, and supported with the high quality of care you expect from ETC. Your local ETC dealer and the ETC factory will work with you every step of the way – all for a fraction of what you might expect.

The new warranty covers your entire rack for 3 years as standard, with an optional 5-year total warranty available.

How many modules are in your rack?	What type of rack do you have?	What processor do you have?	Order this!
