- fos/4 Panel fixtures

## Known Issues Remaining in v1.0.0

| | |
|---|---|
| LEDSTUDIO-255 | Some effect settings may not be loaded properly when using a USB flash drive to apply fixture settings. |
| LEDSTUDIO-243 | Using the Set Light app to restore defaults while in the Studio screen can retain the current Studio settings after defaults are restored. |
| LEDSTUDIO-233 | Modifying effects through RDM may allow you to make invalid selections. |
| LEDSTUDIO-154 | Out of gamut warning not displayed properly. |
| | **Workaround:** Press the Menu button, and then navigate to Diagnostics > About Color to verify whether a color is out of gamut. |
| LEDSTUDIO-140 | Inconsistent behavior following rapid power cycles. |
| | **Workaround:** Power cycle fixtures for a minimum of 5 seconds. |
| LEDSTUDIO-128 | Hold Last Look is not canceled by local changes. |
| | **Workaround:** Use the Function button to cancel Hold Last Look behavior. |
