

ETC Release Notes

aRFR and iRFR Focus Remote Apps

eos Family Lighting Control Systems

aRFR and iRFR Application Software

Version 4.1.7

Effective 2025-Aug-27

Components

aRFR App (Android)	v4.1.7.184
iRFR App (iOS)	v4.1.6.181

About This Release

This release of aRFR and iRFR application software corrects a visual bug in v4.1.6 that could affect phones running Android 15 and later.

For information about recent releases, see [Release History](#).

Compatibility

ETCPad does not currently support Focus Wand.

Eos

The Focus Remote apps require Eos v2.6 or later to connect. In order to use the Focus Wand feature, connected consoles must be running Eos v3.0.0 or later.

Android

aRFR requires Android OS 7.0 (Nougat, sdk 24) or later.

Focus Wand requires ARCore. ARCore support is managed and maintained by Google®.

A complete and up-to-date list of supported devices can be found at developers.google.com/ar/discover/supported-devices.

iOS

iRFR requires iOS 11 or later.

Focus Wand requires ARKit, available on iOS 11.3 and later on the following devices:

- iPhone SE and above
- iPad Pro, iPad 5th generation and above

See the About screen of your device for Augmented Reality support information.

Issues Corrected in v4.1.7

EOSAPPS-327 RFR: Command line and navigation drawer can be cut off on Android 15 and 16
